

Kairi Breckenridge

kairidev@gmail.com <https://github.com/Kaikaine>

Skills:

CSS, Bootstrap, SASS/LESS, Javascript, ClojureScript, Clojure, Nodejs, Express, React, Redux, SQL, MongoDB

Work Experience:

ATA, LLC

JUNE 2019 - December 2019

- Created a program in JavaScript and React to automate the data entry process for a DMV wide event
- Converted an Angular to ClojureScript and Material UI which allowed for a faster user experience and a cleaner, more maintainable codebase. Load time went from 5 seconds to 2 seconds

SIDE PROJECTS

<https://limitless-refuge-65213.herokuapp.com/>

Built with React, Redux, and Bootstrap in the front-end and with Node, Express, and MongoDB in the back-end. This is a social media application that allows users to create profiles, post statuses, and comment on other statuses. Deployed on Heroku.

<https://two-man-8dodd.firebaseio.com/>

A website that displays stats about a football team. Built with React and Firebase, there's an admin area that allows you to add and remove data from the site as well. Deployed using Firebase hosting.

<http://ethereal-scene.surge.sh/>

A static website that displays tour info about an artist. Built with React and Material-UI and deployed using surge.

EDUCATION

Lambda School

JUNE 2018 - DECEMBER 2018

- An online 30 week intensive computer science school that teaches full-stack development as well as computer science fundamentals
- Completed the full-stack section of the lambda school curriculum.
